SERVICE LETTER

No. 306

Lock Haven, Pennsylvania, U.S.A.

October 10, 1958

TO: All Distributors, Dealers, Owners and Operators

SUBJECT: Carburetor Heat Shroud Support Modification

MODELS AFFECTED: PA-23 Apache, Serial Nos. 23-1152 to 23-1501 incl. and all Apaches incorporating the Carburetor Heater Modification Kits Part Numbers 754 171 and 754 173 installed prior to date of this letter

We are pleased to announce the availability (In limited quantities for the present, lot quantities in approximately four weeks.) of the subject modification for the Apache. This is in line with our policy of making available to Apache owners modifications which will intend to increase the efficiency of the airplane and also to lessen aircraft maintenance.

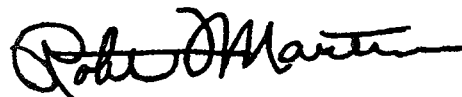

A brief description of this modification is as follows:

The carburetor heater shroud installation has been improved by revising the shroud attachment end plates. These plates include a slotted tube which securely fastens the plate to the exhaust stack. This modification also incorporates the use of exhaust stack brace clamps for the purpose of attaching the end plates and also supporting the exhaust stacks.

The material for accomplishing this modification in the field is contained in Kit part number 754 192 and each Kit includes sufficient material for modifying one (1) airplane. This modification kit will be available free of charge through your Piper Distributor until May 1, 1959. To secure this kit free of charge it will be necessary that the aircraft serial number or numbers be included on all purchase orders.

Very truly yours,

PIPER AIRCRAFT CORPORATION
