

SERVICE

LETTER

Service Letter No. 322A

October 12, 1959

TO: All Distributors, Dealers and Owners

SUBJECT: Fuel System Control Valves

MODELS AFFECTED: PA-23 and PA-23 "160" Apaches

This letter supersedes Service Letter No. 322 dated August 18, 1959.

We are pleased to announce the availability of an improved version of the fuel system control valves. This new valve, which incorporates a nylon shaft support bushing and additional "O" ring seal, will provide a greater service life for the "O" ring seals.

The following listing indicates the part numbers and prices of these improved valves:

| <u>Part No.</u> | <u>Nomenclature</u> | <u>Unit Price</u> |
|-----------------|---|-------------------|
| 492 050 | Crossfeed Shut-Off Valve | \$11.72% |
| 492 050 | Main Shut-Off Valve (Used only when auxiliary fuel system not installed.) | \$11.72% |
| 492 051 | Auxiliary and Main Fuel System Shut-Off Valve | \$13.02% |

The above listed valves are available for immediate delivery through your Piper distributor or dealer.

Upon installation of the new valves, the cable control system shall be checked for proper operation and rigging in accordance with the Apache Service Manual.

Very truly yours,

PIPER AIRCRAFT CORPORATION

Robert Martin
Service Spares Manager

PIPER AIRCRAFT CORPORATION, LOCK HAVEN, PA., U. S. A.
